## DETAILED PAGE SPECIFICATIONS

### 1. HOME PAGE

#### Hero Section (Above Fold)

- Headline: "Building Value. Managing Investments. Delivering Peace of Mind."
- Subheadline: "Three decades of construction mastery meets institutional-grade financial analysis. From land acquisition to key handover—and every investment decision in between."
- Primary CTA: "Schedule Your Consultation"
- Secondary CTA: "Explore Our Projects"
- Background: High-quality image of completed premium project or time-lapse video

#### Trust Bar (Below Hero)

- 30+ Years Experience
- 200+ Projects Completed
- Licensed & Insured
- Financial Transparency Guarantee

#### Service Quick-Links (6-Card Grid)

Each card: Icon + Title + 2-line description + "Learn More" link

#### Featured Projects (3-Project Carousel)

- Mixed categories (1 residential GC, 1 renovation, 1 commercial)
- Each: Image, Title, Location, Value Add metric (e.g., "Delivered 23% under budget")

#### Differentiation Section: "Why We're Different"

- Legacy: 30-year foundation vs. Innovation: Modern financial systems

- Visual: Split-screen comparison or timeline graphic

Testimonials (2-3 rotating)

- Mix of project types and client categories (local, diaspora, investor)

CTA Section: "Start With Confidence"

- "Every project begins with a free feasibility consultation. Know your numbers before breaking ground."

- Button: "Book Your Free Analysis"

Footer

- Contact info + map
- Quick links
- Newsletter signup: "Market Insights & Cost Guides"
- Social media links

## 2. ABOUT PAGE

Our Story Section

- Timeline Graphic (Interactive):
  - 1994: Plumbing services founded
  - 2014: Electrical services added (selective projects)
  - 2018: Full general contracting—land to keys
  - 2024: Second generation joins—financial advisory services launched

Leadership Profiles

Father (Founder & General Director):

- Photo
- 30-year journey narrative
- Philosophy: Craftsmanship, attention to detail, client trust
- Key stats: X projects, Y certifications, Z team members trained

You (Director of Financial Strategy & Project Development):

- Photo
- Academic credentials (LAU, LSE, Cape Town)
- GRE 335 / 3.98 GPA (establishes quantitative rigor)
- Value proposition: "Bringing institutional-grade financial analysis to construction management"
- Specific expertise: DCF modeling, feasibility analysis, investment structuring

Our Approach (4-Pillar Grid)

3. Craftsmanship First: 30 years of hands-on expertise
4. Financial Rigor: Every decision validated by numbers
5. Transparency: Real-time budget tracking, no hidden costs
6. End-to-End Accountability: Single point of responsibility

Certifications & Partners

- Licenses, insurance, professional memberships
- University/institutional logos (LSE, Cape Town, LAU)

----

3. SERVICES PAGES (6 Primary Categories)

### 3.1 GENERAL CONTRACTING & CONSTRUCTION

Hero Image: Aerial view of completed project or construction progress

Overview: "From bare land to finished keys, we manage every phase of construction with meticulous oversight and financial transparency."

Service Breakdown:

- New residential construction (villas, apartments)
- Commercial construction (offices, retail, industrial)
- Project management & supervision
- Permit acquisition & regulatory compliance
- Subcontractor coordination

- Quality control & inspections

Your Financial Value-Add:

- Pre-construction feasibility analysis
- Milestone-based payment structuring
- Real-time budget tracking vs. actuals
- Variance analysis and cost optimization

Process Steps (Visual Timeline):

4. Feasibility & Land Analysis

5. Design Coordination

6. Permits & Approvals

7. Construction Management

8. Quality Assurance

9. Final Handover

CTA: "Discuss Your Project"

----

### 3.2 PLUMBING & MECHANICAL SYSTEMS

Overview: "The foundation of our 30-year legacy—expertise that has evolved with modern technology and sustainable practices."

Services:

- Installation & repair (residential/commercial)
- Heating system design & installation
- Drainage solutions & sewage systems
- Waterproofing (basements, roofs, terraces)
- Emergency plumbing services

Technical Capabilities:

- High-pressure systems

- Solar water heating integration
- Smart leak detection systems
- Greywater recycling systems

Case Study Teaser: "See how we resolved complex drainage for a hillside villa"

### 3.3 ELECTRICAL SERVICES & AUTOMATION

Overview: "Ten years of selective electrical work has evolved into comprehensive power solutions—from basic wiring to intelligent home ecosystems."

Services:

- Residential electrical design & installation
- Commercial electrical systems
- Smart home automation (lighting, climate, security)
- Electrical safety inspections & certification
- Generator & backup power systems
- EV charging station installation

Automation Specialties:

- Centralized control systems
- Energy monitoring & optimization
- Integrated security systems
- Automated irrigation & pool controls

### 3.4 OUTDOOR SYSTEMS & POOLS

Overview: "Complete outdoor living environments that extend your usable space and enhance property value."

Services:

- Landscape design & installation
- Swimming pool construction (concrete, infinity, natural)
- Pool maintenance & equipment
- Irrigation system design & installation

- Outdoor lighting & electrical
- Terrace & hardscape construction
- Outdoor kitchens & living spaces

Financial Angle: "Pool and landscape investments typically yield 60-80% ROI in our market. We ensure your outdoor spending adds measurable value."

### 3.5 PROPERTY CARE & MAINTENANCE

Overview: "Comprehensive property management for owners who demand peace of mind—whether you're across town or across the world."

Primary Service: Absentee Owner Program

Target: Lebanese diaspora, international investors, seasonal residents

Service Package:

- Regular property inspections (weekly/bi-weekly)
- Pool maintenance & chemical balancing
- Garden & landscape upkeep
- HVAC system monitoring
- Emergency response & repairs
- Detailed monthly reporting with photos
- Bill payment & vendor management
- Pre-arrival preparation (stocking, cleaning coordination)

Security Features:

- 24/7 emergency hotline
- Vetted contractor network
- Insurance coordination
- Digital documentation portal

Pricing Structure: Tiered packages (Silver/Gold/Platinum) based on property size and service frequency

### 3.6 FINANCIAL ADVISORY & DEVELOPMENT

This is your differentiation—treat as premium service

Hero Statement: "Construction decisions are investment decisions. Before breaking ground, validate the numbers."

#### Service 1: Project Feasibility Studies

- Land acquisition analysis
- Zoning & regulatory assessment
- Construction cost estimation
- Market comparable analysis
- ROI projections & sensitivity analysis
- Optimal timing recommendations

Deliverable: 15-20 page professional report with financial models

#### Service 2: Investment Analysis & ROI Modeling

- Rental yield projections
- Flip scenario analysis
- Hold vs. sell decision frameworks
- Tax optimization strategies
- Exit strategy planning

#### Service 3: Construction Finance Management

- Milestone-based payment scheduling
- Cash flow optimization
- Vendor negotiation & cost control
- Real-time budget tracking
- Variance analysis & reporting

#### Service 4: Diaspora Investment Services

- Remote property identification
- Local market representation

- Secure payment handling
- Progress reporting & documentation
- Turnkey rental setup (if investment property)

Your Credentials Highlight:

- LSE Real Estate Economics & Finance
- University of Cape Town Property Development
- GRE 335 (99th percentile quantitative)
- 3.98 GPA Finance, LAU

Sample Deliverables Preview:

- Feasibility study excerpt
- Financial model screenshot (anonymized)
- Investment memo template

CTA: "Schedule Financial Consultation" (Premium positioning—separate from general inquiry)

#### 4. PROJECTS PAGE (Dual-Filter Architecture)

Page Header: "Built on Trust. Documented in Detail."

Filter System:

Row 1: Project Type

- [All Types] [Residential] [Commercial]

Row 2: Service Category

- [All Services] [General Contracting] [Renovation] [Electrical] [Plumbing] [Outdoor & Pools]

Project Grid (Dynamic Filtering):

Each project card displays:

- Featured image
- Project title & location
- Type tag (Residential/Commercial)

- Service tags (up to 3)
- Key metric: "Budget: \$XXX,XXX | Timeline: X months | Savings: X%"

Individual Project Page Template:

Hero Gallery: 5-8 high-quality images (before/during/after)

Project Overview:

- Client type (Owner-occupier / Investor / Diaspora)
- Project scope summary
- Timeline

Services Provided (Tags linking to service pages)

The Challenge: What problem did the client face?

Our Solution: How did we solve it?

Financial Transparency Section (Your unique addition)

- Initial budget vs. final cost
- Key cost-saving measures implemented
- ROI achieved (if investment property)
- Client quote about financial process

Technical Details:

- Square meters
- Materials used
- Special features

Gallery: Additional photos organized by phase

Related Projects: 3 similar projects

CTA: "Start Your Similar Project"

----

## 5. PROCESS PAGE

For Homeowners Tab

- Step-by-step journey from initial call to final walkthrough
- Timeline expectations
- Communication protocols
- Payment schedule explanation

#### For Investors Tab

- Feasibility study process
- ROI validation methodology
- Construction finance management
- Exit strategy support

#### For Absentee Owners Tab

- Onboarding process (remote)
- Documentation & legal requirements
- Reporting schedule
- Emergency protocols

#### Our Methodology Section

- Quality control checkpoints
- Financial oversight procedures
- Subcontractor vetting
- Safety protocols

----

## 6. INSIGHTS PAGE (Content Marketing Hub)

### Market Reports (Quarterly)

- Construction cost index
- Price per square meter trends
- Rental yield analysis by area
- Market outlook

## Cost Guides

- "What It Really Costs to Build a Villa in [Region]"
- "Renovation Budget Planning: Hidden Costs Revealed"
- "Pool Construction: Investment vs. Value Added"

## Investment Analysis

- "Rental Property ROI: New Construction vs. Renovation"
- "Timing Your Construction: Market Cycle Considerations"
- "Diaspora Investment: Legal & Financial Checklist"

## Case Studies (Long-form, financial focus)

- "How We Delivered 15% Under Budget on a \$500K Project"

Email Capture: "Subscribe to Market Insights"

----

## 7. CONTACT PAGE

Multi-Option Layout:

### Option 1: Request Project Quote

- Form: Name, Email, Phone, Project Type, Budget Range, Timeline, Description
- File upload (plans, photos)

### Option 2: Schedule Consultation

- Calendar integration (Calendly/similar)
- 30-min free feasibility discussion
- 60-min detailed financial analysis (paid, credited toward project)

### Option 3: Emergency Services

- 24/7 hotline number
- WhatsApp button
- Immediate response guarantee for plumbing/electrical emergencies

## Office Information:

- Address (if applicable)
- Working hours
- Map

## Social Media Links

----

## TECHNICAL SPECIFICATIONS

### Design System

#### Color Palette:

- Primary: Deep Navy (#1A365D) — Trust, stability, professionalism
- Secondary: Warm Sand (#C9A227) — Construction, earth, legacy
- Accent: Bright White (#FFFFFF) — Clean, modern, transparent
- Text: Charcoal (#2D3748) — Readable, professional

#### Typography:

- Headings: Montserrat or similar sans-serif (modern, strong)
- Body: Open Sans or Inter (readable, professional)
- Accent: Playfair Display for quotes/testimonials (elegant, established)

#### Imagery Style:

- High-quality photography of completed projects
- Before/after sliders for renovations
- Aerial/drone shots for large projects
- Candid shots of team/father working (authenticity)
- Clean infographics for financial data

## Required Functionality

### Core Features:

- Responsive design (mobile-first)

- Project filtering system (JavaScript)
- Image galleries with lightbox
- Contact forms with file upload
- Google Maps integration
- Social media integration

#### Advanced Features (Phase 2):

- Client portal login
- Real-time project dashboards
- Online payment processing
- Multi-language support (English/Arabic/French)

#### SEO Requirements:

- Schema markup for local business
- Project structured data
- Optimized images (WebP format)
- Fast loading (Core Web Vitals)
- SSL certificate

#### Content Management

##### Recommended Platform: WordPress or Webflow

- Easy project portfolio updates
- Blog/content publishing
- Client testimonial management
- Form handling

##### Page Builder: Elementor (WordPress) or native Webflow

- Flexible layouts
- Reusable components
- Mobile optimization

## IMPLEMENTATION ROADMAP

### Phase 1: Foundation (Weeks 1-4)

- Finalize branding (logo, colors, typography)
- Write all core content (services, about, process)
- Gather project photos and data
- Set up hosting and CMS

### Phase 2: Build (Weeks 5-8)

- Develop homepage and core pages
- Build project portfolio with filtering
- Implement contact forms and CTAs
- Mobile responsiveness testing

### Phase 3: Content & Launch (Weeks 9-10)

- Load all project case studies
- Create initial insights content (3-5 articles)
- SEO optimization
- Soft launch and testing

### Phase 4: Enhancement (Month 3+)

- Client portal development
- Advanced financial tools (ROI calculators)
- Email marketing integration
- Performance analytics

## KEY MESSAGING FRAMEWORK

### Elevator Pitch (25 words)

"Three decades of construction mastery, now enhanced by institutional financial analysis. We build structures—and validate investments—from land to keys."

### Tagline Options

- "Built on Trust. Validated by Numbers."
- "Where Craftsmanship Meets Financial Intelligence."
- "Your Project. Our Legacy. Real Returns."

#### Unique Selling Propositions by Audience

For Homeowners: "No surprises. Real-time budget tracking and 30 years of quality craftsmanship."

For Investors: "Construction decisions validated by LSE-trained financial analysis. Know your ROI before breaking ground."

For Diaspora: "Your property in expert hands. Local construction mastery with international financial standards."

#### SUCCESS METRICS

##### Lead Generation:

- Consultation requests per month
- Feasibility study bookings
- Quote requests by service type

##### Engagement:

- Time on site
- Project page views
- Insights content downloads

##### Conversion:

- Proposal acceptance rate
- Average project value
- Client referral rate

This architecture positions your father's legacy as the foundation while establishing your financial expertise as the growth engine. The dual-filter project system showcases breadth and depth, while the Financial Advisory services create a premium, differentiated offering unavailable from traditional contractors.
